

Sisalation® Facing Foil Light Duty (436)

Product Description

Two outer layers of aluminium foil bonded to high density kraft papers, bonded together with a heavy coating of flame retardant adhesive and reinforced with strands of fibreglass in two directions.

Applications

Sisalation® Facing Foil Light Duty (436) is a Light Duty reflective foil laminate designed primarily for use as a facing to glasswool building blanket. When used in conjunction with an airspace it is an effective thermal insulation material because of the high reflectivity and low emissivity of its aluminium foil surfaces. It also provides an effective barrier against moisture, vapours, wind, heat and dust penetration when overlapped and sealed with Sisalation® Vapastop® 883 self adhesive aluminium tape.

Specification

When specifying, state the following:

Product Name: Sisalation® Facing Foil Light Duty (436)
Duty: Light Duty
Application: Facing Foil

Physical Properties

Classifications according to AS/NZS 4200.1

Duty.....Light	Water Barrier.....High
Vapour Barrier.....High	Flammability Index.....Low (≤5)
Emittance.....Reflective	

Chemical Properties

Do not allow contact with wet mortar or concrete: alkalis' attack aluminium foil.

Standard Roll Sizes

Roll Width	1350mm	1350mm	1350mm	1350mm
Roll Length	2000m	1000m	500m	60m
Roll Area	2700m ²	1350m ²	675m ²	81m ²

Other roll sizes available on application.

Health and Safety

There are no known health or safety risks associated with this product for applications described in this datasheet. For additional information or to request a Material Safety Data Sheet please visit www.sisalation.com.au or contact your nearest Fletcher Insulation™ office.
